

## Millennium Engineering and Integration Company Opens Huntsville Office

February 22, 2006

FOR IMMEDIATE RELEASE

Huntsville, Ala. – Millennium Engineering and Integration (MEI) Company celebrated the opening of their Huntsville office on February 21. A ribbon cutting ceremony was held at the MEI office in Cummings Research Park. The MEI Huntsville office will focus on technology development and integration for missile defense and other aerospace/weapon systems.

"We are looking forward to extending our services and capabilities to our clients and customers in the Huntsville area. Huntsville has many opportunities for our company and clients, and we are excited to extend our expertise in advanced aerospace technology development," said Kerry Wisnosky, president and CEO of MEI.

Dr. Patricia Sanders, executive director of the Missile Defense Agency, attended the ceremony and offered, "This year begins the significant relocation of elements and program offices under the Missile Defense Agency's reengineering. I applaud MEI's commitment to leverage Huntsville's technical capabilities and ensure continued excellent support of the agency through changing times."

Mayor Loretta Spencer was on hand to welcome company executives. "I am especially pleased to see MEI establish a presence in Huntsville. Our community has a trained and knowledgeable workforce for companies like MEI. We wish MEI great success and we welcome them to Huntsville, Alabama." said Spencer.

Irma Tudor, vice chair for economic development, Chamber of Commerce of Huntsville/Madison County said, "MEI's core competencies: systems engineering; hardware integration and test; sensors; test and evaluation; software engineering and simulation; and program engineering management, further complement the high technology make-up of Cummings Research Park, one of the world's leading research and business parks."

Millennium Engineering and Integration (MEI) Company is a privately-held, employee-owned, small business with demonstrated capability to meet a broad range of customer requirements. By responding to customer needs with the best talent operating in the right locations, MEI has formed strong alliances to deliver its products and services. MEI's corporate headquarters is located in Arlington, Virginia.
