IAAP Student Chapter Hosts Mock Interviews on Campus

April 14, 2009 – The J.F. Drake State Technical College Student Chapter of the International Association of Administrative Professionals (IAAP) hosted mock interviews for the student body as part of Career Week activities on the campus.

Area Human Resource professionals from Redstone Federal Credit Union, Miltec, Verizon Wireless Call Center and the Huntsville Career Center performed interviews with more than twenty five students. Students were evaluated on their communication skills and professional appearance and were given immediate feedback on their performance. This is the second year that the Drake State College Student Chapter has facilitated mock interviews on the campus.

The Drake State College Student Chapter was formed in February 2008 and currently has approximately twenty students from various degree programs. The student officers coordinate monthly programs on various professional and personal-related topics as well as attend professional workshops and events hosted by their sponsor, the IAAP Huntsville Chapter.
