Dynetics gets contract to support Army Space and Missile Defense Command/Army Forces Strategic Command

HUNTSVILLE, Ala., Nov. 5, 2009 – Dynetics is a member of the SGIS team that was awarded a Scientific, Engineering and Technical Assistance (SETA) contract by the United States Army Space and Missile Defense Command / Army Forces Strategic Command (USASMDC/ARSTRAT). The five-year contract is for Space and Missile Defense Initiatives Support III (SMDIS III).

Dynetics will provide scientific, engineering and technical assistance support for Space, Missile Defense, Global Strike, Information Operations, Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) and Homeland Security. The work will be performed primarily out of the Dynetics Colorado Springs, Colo., office, and some work will also originate in the Huntsville office.

“Dynetics has a strong history of support to the U.S. Army in the space and missile defense areas,” said Dr. Marc Bendickson, Dynetics CEO. “We are honored to be a part of the SGIS team and have the opportunity to continue providing our services to customers we have worked with as a prime contractor on the SMDIS II contract.”

As part of the SGIS team, Dynetics will provide services in areas such as planning; development; fielding documentation; modeling and simulation; system analysis and integration; integrated logistics support; development of strategy; support to the warfighter; contingency and mission support; program oversight; independent verification validation and test evaluation; prototype development; sustainment and operation, training; and analysis of emerging technologies.

About Dynetics

Dynetics Inc., with headquarters in Huntsville, Ala., and offices throughout the United States, has delivered high-quality, high-value engineering, scientific and information technology solutions to customers within the U.S. government and a range of other market segments since 1974. Our mission is to bring expertise, integrity and tenacity to every relationship and to demonstrate our commitment to customers by providing powerful solutions to their technical challenges.
