Steve Lee promoted to director of Information Technology

HUNTSVILLE, Ala., Jan. 17, 2012 – Steve Lee, with more than 13 years devoted to running Dynetics’ computer operations, has been promoted to Director of Information Technology.

In his new duties, he will assume direction of the staff that formerly served as the Enterprise Information Office and will continue to manage the Information Technology (IT) Operations team. He will be responsible for all in-house application development and information infrastructure planning, as well as implementation, operations, network security, telephony, classified computing, IT service desk and service request management.

In his 27 year career, Lee has worked in nearly all phases of IT including software development, database administration, operations, project leadership and program management.

Lee joined Dynetics in September 1998 as the Computer Center manager and was promoted in 2004 to IT Operations manager. Dynetics selected Steve in 2007 for the Bob O. Wilson Award for Business Excellence for his success and the success of his IT Operations team in supporting and enabling the business elements of the company. Also in 2007, the Alabama Technology Management Association selected him as the statewide Professional of the Year.

About Dynetics
