Raytheon Integrated Defense Systems Honors Dynetics with Supplier Excellence Award

HUNTSVILLE, Ala., May 14, 2010 – Dynetics recently received a Four-Star Supplier Excellence Award from Raytheon Integrated Defense Systems (IDS). Out of more than 3,000 suppliers, Dynetics was one of only 47 honored with an award in the top four- or five-star category. The Supplier Excellence Award is presented to Raytheon IDS suppliers who meet strict requirements for quality, timeliness and cost effectiveness in the delivery of products and services for Raytheon development programs.

Dynetics was specifically recognized for its engineering work in support of the Radar Digital Signal Injection System (RDSIS), which is integrated into Raytheon’s String Test Facility in Woburn, Mass. The RDSIS synthesizes real-time, high-fidelity signals to stimulate the radar’s signal and data processor, allowing the radar digital hardware and software to be tested in the lab as if the radar were operating in a tactical scenario.

Dynetics primarily provides radar expertise to the program, including algorithm development, RDSIS integration and test. The algorithm development activity focuses on developing the detailed mathematical approaches for signal synthesis, including accepting high-fidelity target signature representations, incorporating realistic environmental effects and imposing radar equipment impacts.

Greg Lester, Dynetics vice president and manager of the Air and Missile Defense Systems Operating Unit, said: “We appreciate Raytheon’s recognition of Dynetics as a supplier of excellence. We are committed to consistent quality, on-time delivery, engineering excellence and process improvement – qualities IDS holds in high regard.”

Dr. Marc Bendickson, CEO of Dynetics, added: “We are honored to receive this award. For more than 35 years, we have placed a strong value on our relationships with our customers and partners, and this award is evidence of our commitment to them. We will continue to focus on our mission, which is to deliver superior quality, high-technology products and services ethically, responsively and cost-effectively.”

Dynetics, along with other award winners, was honored at the recent 2009 Supplier Excellence Awards Ceremony, held in conjunction with the IDS Operational Excellence Supplier Conference in Foxboro, Mass.

Alan Harmon, Sonjia McCauley, Ching Woo-Travis, Amanda Hardin, Randall Burk, Ramona McLain, Mike Newlin, Michael Stockton, David Campbell, Marc Deerman, Rhonda Meadows, and Craig Brennan make up the Dynetics team honored with the Raytheon Supplier Excellence Award.

About Dynetics

Dynetics Inc., with headquarters in Huntsville, Ala., and offices throughout the United States, has delivered high-quality, high-value engineering, scientific and information technology solutions to customers within the U.S. government and a range of other market segments since 1974. Our mission is to bring expertise, integrity and tenacity to every relationship and to demonstrate our commitment to customers by providing powerful solutions to their technical challenges in intelligence, missiles, aviation, cyber and space.
