## **Mission Ready Supply Secures Ballistic Vest Order with the Colorado National Guard**

Mission Ready Supply, Inc., a Veteran Owned Small Business (currently completing its HUB Zone certification) announced today that it has received a contract issued by the Colorado National Guard for 162 ballistic vests. The value of this contract is \$89,100 and will support the 220<sup>th</sup> Military Police Company located in Denver, CO. These vests have an integrated system which will protect against bullets, knives and spike threats. They also incorporate a MOLLE system whereby the user can attach many types of pouches, holsters and other equipment directly to the vest. This allows the vests to be reconfigured for various types of missions.

Andy Stewart, President, said, "This order marks our first federal government contract since starting MRS this past February. The industry average is 20 months before a company lands its first federal contract, and we did it in 5 months. I am confident that MRS will continue this early rate of success".

Mission Ready Supply is located in Huntsville, AL and was started on the premise of connecting businesses and end users with custom product solutions. Whether that product is ballistic helmets or aircraft maintenance stands, MRS has the resources to accomplish the mission. We specialize in the following areas: personal armor products, armor consulting, tactical equipment, contract manufacturing, global logistics and government contract consulting. Our industry advantage is providing a turnkey solution based on value, technical aptitude, delivery and service after the sale. Mission Ready Supply's goal is to provide innovative solutions in support of law enforcement and the military. This goal supports our three fold mission of: quality products, on-time delivery, and unparalleled customer service.
