Small Business Recognition:

**QTEC, Inc.
Recognized For
“Supplier Excellence”**

Huntsville, AL, December 7 – QTEC, Inc. - a Huntsville-based systems engineering support firm has been recognized for superior performance in support of Northrop Grumman Information Systems as part of the team developing and sustaining the Ground-Based Midcourse Defense (GMD) Systems for the Missile Defense Agency (MDA). QTEC provides program management, systems engineering, and operations and sustainment support. This includes support for Engineering Change Proposals, Change Notices, and new contract proposal efforts. QTEC develops Bills of Material, provides software development cost estimates, supports supply chain management, and evaluates subcontractor proposals. QTEC also supports daily missile defense operations and sustainment activities and associated logistics required to keep the missile defense system and its communication channels in an operational readiness state.

QTEC’s CEO, Ms. Kathryn Broad, states, “We are honored and humbled to be recognized for superior performance by Northrop Grumman, which is clearly a world class organization. Northrop has been a great mentor as we have developed during our 13 years of business. QTEC stands for Quality, Timeliness, Efficiency and Courtesy; these are our corporate objectives, and this award is a great indicator that our employees and management are achieving these objectives. This award will certainly motivate us to be even a better supplier to Northrop Grumman.”

About QTEC, Inc.

QTEC is a woman-owned small business that provides systems engineering, programmatic, analysis and software development support for MDA, Army, Air Force, Navy and NASA prime contractors. QTEC’s technical and business systems are focused on agility, responsiveness and affordability for our customers.
